

summary

Why go to the Cinema when you can get all the quality from home. In addition to stunning pictures provided to KiSS DVD Players by technologies like Progressive

Scan and Best-Ever DivX® Playback of all formats, from 3.11 to 5, KiSS introduces a new range of player equipped with a built-in High Quality Class D 5x50 Watt Digital Amplifier and a FM/AM Tuner. Adding amazingly clear and moving sound to perfectly sharp picture. KiSS creates the ultimate home cinema experience. Based on the ground breaking and well acclaimed KiSS DP-450, the KiSS DP-470 offers

playback of DVD, DivX® 3.11, DivX® 4, DivX® 5 as well as MPEG-4 support. With such a high standard sound system, KiSS couldn't leave music aside, so, the DVD Player can play standard music CDs, MP3 and Ogg Vorbis files. As for still images, a KiSS DVD Player wouldn't be complete without playback of CD containing JPEG images. As easy as it gets, the KiSS DP-470 ships with a user friendly interface

that enables a 7 step Quick Setup of the Player once connected to a TV, selection of: Language, Video Connection, TV Type and Auxillary Input Connection type. Firmware updates are regularly posted on our web site (www.kiss-technology.com) adding improvements and new features to the player. On top of all these features, the KiSS DP-470 comes complete with CD-RW and DVD+-RW Playback.

A Complete Audio Solution inside a DVD Player

KiSS DP-470

front and back

watch out for

BUILT-IN DIGITAL AMPLIFIER

Adding stunning sound to excellent picture, the KiSS DP-470 ships with a Class D 5x50 Watt Amplifier and Surround Receiver that can be easily connected from the player to any standard type set of speakers (Left and Right speakers, Surround Left, Right and Center Speakers). This feature makes the KiSS DP-470 100% Digital Audio System.

AM/FM TUNER

Along with a 5x50 Watt Digital Amplifier and Surround Receiver, the KiSS DP-470 is capable of receiving Radio Stations thanks to the integrated AM/FM Tuner. To get a good reception the player is delivered with two antennas that can be easily plugged to the provided connections at the back of the DP-470.

BEST EVER DivX® COMPATIBILITY

KiSS DVD players play all DivX format. DivX® 3.11, DivX® 4 and DivX® 5. What does this mean for you? It means that now, for the first time, you can download full-screen, full-motion videos from the Internet that actually look and sound like what you get from your television or DVD player. With DivX® compression, you can download and watch high-quality video on your TV.

PROGRESSIVE SCAN

Enhancing the experience for such a player goes to enhancing the picture quality when watching a movie. To enable this KiSS DVD Players provide Progressive Scan, a praised feature that double the scan lines of conventional DVDs, which result in a higher picture resolution and a much sharper image quality.

7 STEP QUICK SETUP

To tackle long and too technical setup problem, KiSS introduces a Seven Step Quick Setup. As soon as the player is plugged-in for the first time, a clear and user friendly graphic interface asks the user to select its language, video connection, screen size, and audio input connection. As the DP-470 includes a built in Class D 5x50 Watt amplifier, 3 QuickSetup screens are devoted only to Audio Setup. Once done, the player is ready for use

FIRMWARE UPGRADABLE

KiSS is keen in keeping a special relation with its customers, so, even after a player has been sold, its software and technology keeps moving. The firmware of the player keeps updated with the latest research and development and KiSS is able to release a firmware update on a regular basis. This latest firmware is available from our web site in the support section.
